Position: Salesforce Developer

Our mission requires technically brilliant minds, creatively-charged souls, and a passion for making the financial industry a better place. Our environment is energetic and collaborative with competitive pay and benefits. Plus you get to work on making a real difference in people's lives.

We are seeking a talented, focused and efficient salesforce.com developer to support the initial deployment of Salesforce in our organization. As part of this deployment you will:

- Architect and build the integration between our salesforce instance and our application
- Configure 3rd party custom integrations with salesforce (VoIP, marketing tools and more)
- Test and solidify the rules within our salesforce instance
- Map out the migration from our existing CRM to Salesforce, ensuring a smooth transition

While this position is a contract role, there is a strong possibility for renewal or full-time role as a data operations leader in our rapidly growing company.

What you have:
- 4+ years experience in software development
- 2+ years of Salesforce Application development
- proficiency with Apex, VisualForce and JavaScript
- experience of / familiarity with Lightning, AJAX
- Team-oriented attitude with high personal and professional character

What we have:
- Competitive salary and compensation structure, including options
- Beautiful, open-concept working environment conveniently situated in downtown Toronto
- Generous group benefits package
- Company events
- Frequent office lunches

To apply, send your resumé and cover letter to careers@planswell.com with subject line "Salesforce developer - [YOUR NAME]".
